Verse 11

Meaning

Three factors are mentioned by Rabbi Joshua as "putting a man of the world". The first is the wicked eye, which Rabbi Joshua already identified as the worst trait in people in mishnah nine. A person with a "evil eye" is someone who is often complaining about other people's possessions. One who loses control over his "evil inclination" is one who has no control over himself and acts on all of his basic instincts.

Lessons

Lessons you can learn from this verse is that you should not sulk over everything that other people have that you dont.
